Family Washing

DRY CLEANING

On June 19th, 1911, we put on a night crew to do Family Washing, "Rough Dry 5c per pound, or Finished," which will also be 5c per pound with a little extra for all pieces of hand ironing.

This is something Hickman people have been asking us to do for some time. We will do our utmost to please them in every respect, and the prices will be so that it will cost very little, if any more, than the colored washwoman, and the conditions will be much more sanitary. We call for your laundry in the afternoon, it is washed at night, "While you Sleep," and you get them next morning, in other words, while you wait.

In about three weeks we will have a regular DRY CLEANING PLANT, not a junk shop but a \$2,000 plant. Save your work for us.

HICKMAN STEAM LAUNDRY

Connelly--Parham.

Chas. Parham, of the firm of Bradley & Parham, took his friends by surprise Tuesday night when he alighted from the train with a charming lady whom he introduced as his wife.

The marriage ceremony was performed at the home of a friend in St. Louis Saturday, and was a very quiet affair.

The bride, who was Mrs. Ella Connelly, is from Coldwater, Mich., is a pleasant, refined lady. Her parents reside at Quincy, Mich.

Mr. Parham was born and reared in our midst, and is too well known to need a lengthy "write-up" from

the Courier. He is a son of B. Parham and one of our most successful business men.

Mr. and Mrs. Parham have a suite of rooms in the Berendes building over Schlenker's jewelry store, where they have embarked in light house-keeping, and are now at home to their friends, whom the Courier joins in extending sincere good wishes for all that love, wealth or position can give—happiness.

There never was a finer showing in all this country for blackberries and we will likely get plenty at 10 cents a gallon, delivered.

We can show you any grade of wall paper you want at a very moderate price.—Fethe & French.

Mengel Improvements.

Hickman is to have another railroad on a small scale.

The Mengel Box Co. is putting in a mile of additional railroad track to be used in handling the logs that are being received over the C. M. & G. Two tracks will cross the West Hickman levee and will run parallel with the cableways between the river and the levee. One track will be used in placing the log cars and the other will be used in operating the locomotive crane, which has been ordered. On account of their receiving so many logs over the new road, it is necessary that some provision be made to take care of and handle these logs separately from the logs that are being brought in by barges. The locomotive crane, which has

been purchased to be used in unloading and placing these logs under the cableways, is a gigantic machine and weighs 144,000 pounds. The tracks will be a great protection to the levee during overflows as they will be on fills between the levee and river. Capt. Tally, who has just finished grading for the N. C. St. L. belt line, has the contract and is now doing the grading.

We Don't Have to

Tell you what it's for it's name tells. Dr. Bell's Pine-Tar-Honey is the best cough medicine and several million people already know it. Look for the Bell on the Bottle.

Mrs. T. O. Copeland, wife of a merchant at Crutchfield, was committed to the insane asylum by Judge Naylor this week.

We are authorized to announce

S. A. NORMAN, of Mayfield, as a candidate for State Senate from the district composed of the counties of Graves, Fulton and Hickman, subject to the action of the Democratic Primary Election, on July 1st, 1911.

We are authorized to announce

W. A. FROST, of Wingo, a candidate for the State Senate from the district composed of the counties of Fulton, Hickman and Graves, subject to the action of the Democratic Primary Election, on July 1st, 1911.

Standard garden seed of every description at Bettsworth & Prather's.

I INSURED WITH KENNEDY.

Charles Boyd, of Mayfield, who has been working for the Mengel Box Co., was stricken with typhoid fever and was carried to his home Monday night.

Miss Alice Campbell, who has had charge of the millinery department at Baltzer & Dodds, completed her season Thursday, and after a few days' visit here, will go to Memphis.

Thursday afternoon at the home of the bride's parents, Mr. and Mrs. R. M. Evans in Clinton, Miss Clara Belle Evans was married to Mr. Alf W. Bennett, the Rev. C. L. Jewell officiating.

We have a few Hickman Souvenir Envelopes left. The set of three shows 15 views. You can get them at 10c a package (24 envelopes), at this office while they last. They are just as cheap as blank ones, and are the thing to send your friends away from Hickman.

We are much obliged to certain candidates for State offices who have furnished us free of charge plates of their speeches and newspaper eulogies for insertion in the Courier. Wonder if they think the country newspaper is an institution designed and run for their benefit? Barking up the wrong tree here.

A wheat crop, the like of which has never been harvested, will be gathered in the United States this season if conditions indicated by the Government's June crop report continue during the growing season. Agricultural experts estimate the crop this year will amount to 764,291,857 bushels, an increase of 68,848,857 bushels over that gathered last year.

The body which was found in the river at Columbus Tuesday of last week proved to be that of Presley Schell, a young man 21 years old who was drowned Sunday at Dogtooth Bend near Cairo, while in swimming. The mother of the boy went to Columbus and made the identification, but the body was in no condition to be moved, and no effort will be made to move the remains until next fall or winter.

Miss Cecil Barnes will leave the last of the week for Memphis, where she will take a business course at the Memphis Business College.

I DIDN'T.

Don't fail to see our line of ornamental locks and hinges. Something new—something nice.—Reynolds-Moss & Co.

The C. M. & G. Ry. now has its telephone line from Dyersburg to this city complete. They have no telegraph instruments—all train dispatching and messages are sent by phone.

Without the organization of "Clark for President" Clubs, Speaker Clark now looms up as the most probable man in the United States to fill the exalted office of President of the United States.

The Lee Line people are making some improvement on their beautiful marble warehouse and mahogany wharf, at Hickman, this week. In a few more years this will be the finest inland dock in the world.

The State primary is not creating much excitement down this way. About one third of the candidates have visited Hickman, and this will be the about the proportion that the votes will be cast—one third the Democratic strength. A little more interest should be taken, as several important offices are to be filled.

A Courier representative dropped in our new laundry yesterday and was surprised to see the volume of business now being handled by this institution. We are not surprised that they are compelled to run day and night when we saw about a car load of clothes piled up and learned they were sent on one morning's rounds. This laundry is now doing first class work, having straightened up and their force of helpers "broken in." At first they were troubled with bad water, but a large filter has solved this problem. We are glad to see this institution prospering. Its a home industry for home people and should receive the home patronage.

The Old Cabinet Maker says:

There was a time when we used to put things in the cellar or the well to keep them cool, put nowadays we have miniature ice houses, where we may store the eatables during the hot weather, from day to day. For one reason alone you can't afford to buy a poor one, for you pay the difference in price in the ice you have to buy. When you get one from us, right here at home, people you know, you are bound to get the right kind. First, we don't handle any other kind, and even if we wanted to we couldn't afford to for just figure how much it would hurt us if we sold you an ice burner for a refrigerator. If you have one now that is using too much ice, what you save in a single season on the ice bill will buy you a good one.

Porter is 11 years old and is prob-
ably the youngest swimmer that ever
swam the big river from shore to
shore." Small boys swimming across
the river is about a daily occurrence
here, and nothing thought of it.

It has been reported by divers per-

A Foolish Fancy.

There may be a pot of gold at the
end of the rainbow, but nobody ever
found it. Distant meadows look
greener, sometimes, but the illusion
remains only as long as the distance
is kept. The big opportunities that
many people over look are at their
doors.

Our people who fancy they can do
more with a dollar in New York, in
Chicago, in Cincinnati, or some other
remote market than they can do in
Hickman, are passing similar or bet-
ter opportunities in their own home
stores every day because of a foolish
indifference to that which lies
close at hand, bred of long familiar-
ity.

The stranger in a strange city is
alert and open-eyed. He sees many
things with appreciation that he has
overlooked at home. He is amazed
when he returns to find that some
neighbor has bought here what he
thought he had to go a thousand
miles to purchase.

Get your eyes open. Give the Hick-
man market the attention it deserves.
You need not wait to wander to some
distant city for things you want. You
can have it now. You can save time
traveling expenses and inconvenience.

This notion that there are bigger
bargains and better chances for se-
lection several hundred miles from
home is a foolish illusion, contradic-
ted every day by the wise buyer who
watches the advertisements in the
Courier.

New City Hall.

Dr. L. P. Baltzer is behind a move
to build a modern opera house, coun-
cil and city court room on the lots
now occupied by the Hickman Hard-
ware Co warerooms, east of the Cour-
ier office. It is generally conceded
that the old city hall is entirely too
small to take care of public gather-
ings that now assemble in Hickman,
and is out of date. The city now has
a chance to dispose of it, and with
little additional money, build a larger
building. The public demands here,
as in other places, an up-to-date city
hall—the growth of the town war-
rants it. Here's hoping L. P. makes
a success of his plan which is being
heartily endorsed by all who have
had their attention called to it.

If reports be true, the dirty, un-
scrupulous monster of political cor-
ruption is beginning to leave his
slimy trail in the byways of Fulton
county. One ringster is credited with
having promised "to deliver Fulton
county" to the measure of the slate
made out by political brokers. Our
primary is to be held one week from
this coming Saturday, and the voters
should put a stop to this traffic in
the people's rights. A candidate who
will go into such a combination or
trade deserves to be defeated—be-
cause, if elected, he would go even
farther. We have no axe to grind—
our only interest is that a square
deal be given every man—and those
who would thwart the will of the
majority should be ousted. The e-
lection officers, although not yet
named, will have it in their power
more than anyone else to see that
right prevails and to catch the "jok-
er" that will likely be in the pack.

We are informed that a fine boy
arrived at the home of Mr. and Mrs.
L. S. Shaw, at Mayfield, Thursday,
June 15. The youngster will be
named M. B. Shaw, Jr., in honor of
his uncle in this city.

Knott Passes Away.

Former Governor J. Proctor Knott,
the "grand old man of Marion," yield-
ed up his spirit to his Maker at the
Knott homestead at 6:05 o'clock Sun-
day evening. The end came most
peacefully.

Gov. Knott was in his 81st year,
and had been in feeble health for
several years. Death was hastened
by a severe choking spell, which, ow-
ing to his debilitated condition, he
was not able to withstand. While
he had been bodily feeble for years,
his mentality remained at the high
tide until the end came, and nothing
pleased him more than for his friends
and associates of the old days to call
on him at his old home and recount
the deeds of the days that were gone.
He had been in ill health since a
stroke of paralysis in 1900.

Raps the Gang.

The Gazette is glad to find the State press showing signs of awakening to the evil of the Prison Commission system as it now flourishes in Kentucky. It rests with the voters whether the evil shall be remedied, and if the people are not interested enough to elect the right kind of men to the Legislature, then the responsibility will rest on their heads. The Gazette has hammered on the Prison Board (which is nothing but a political machine) until its readers are familiar with the existing conditions, and we have the satisfaction of knowing that the voters in this district have done their duty and have gone after the evil in the right way. Recently we nominated a man for the Legislature in this district who will refuse to do the bidding of Brown and McCutcheon, and on July 1st we expect to nominate a State Senator who has refused to make terms with the beast. In the race for representative we had to fight the Prison Board and the whisky interests which were banded together; and in the race for Senator we have the same fight to make. The use of money, whisky and promises of jobs as prison guards was notorious in the legislative race, and we have been warned that the same influences will be brought to bear to defeat Mr. Frost for Senator. We look for this district to be flooded with whisky before the election; we expect to see the beneficiaries of the "system" move on this district with automobiles, whisky, cigars and money just as they did in the legislative race. We have been reliably informed that the "interests" have appropriated \$5,000 at least to defeat Frost for Senator. But we think the voters of this district cannot be debauched. We look for Frost to be elected, and if he is we will send to Frankfort next winter two members of the General Assembly who can be depended upon to do their part towards ending the State of the incubus, at the same time relieve the Democratic party of the shame of fostering such a machine. How many other districts are going to do this? What about the Ballard-Carlisle district? Does anybody know who is the candidate of the Prison Board in that district? One of the two candidates now seeking the Democratic nomination over there is pretty sure to be satisfactory to the Prison Board, else it would have another candidate in the field. The time for the people to

attend to this business is before, not after, the primary. Have your candidate so pledged against the machine that if he go over to it he will be a marked man.—Clinton Gazette.

The KITCHEN CABINET

FIND earth not gray, but rosy,
Heaven not grim, but fair of hue.
Do I stoop, I pick a posy;
Do I stand and stare, all's blue.
—Robert Browning.

Left-overs.

There is a prejudice in the minds of many people that anything warmed over or served the second time is objectionable. There are rare housekeepers who are able to make ends meet and not have any waste. In planning the meals for a week ahead one is able to make dishes for breakfast or supper from the leftover of the day before. Vegetables of all kinds may with careful handling be transformed into salads, creamed and scalloped dishes; in fact, there are numerous ways of serving them.

Meats, being our most expensive food, must be bought and prepared with care. The most expensive cuts do not contain any more nutriment than the cheaper ones. By slow cooking and care in seasoning the cheaper meats may be made most appetizing. A nice way to use bits of leftover chicken is to add it to cooked macaroni in layers, adding gravy or cream for moisture, cover with buttered crumbs and bake until the crumbs are brown.

After a boiled dinner, a most delicious hash may be made which many prefer to the boiled dinner itself. Chop the corned beef, after freeing it from all gristle, and add an equal quantity of the cold vegetables—beet, carrot, cabbage, turnip and potato. Season with salt and pepper, add a little water and cook slowly until brown underneath. Turn and fold on a platter. Garnish with parsley and serve.

Luncheon Chicken.

Cook two tablespoonfuls of butter with a slice of onion and a slice of carrot cut in bits for five minutes; add two tablespoonfuls of flour and one cup of chicken stock. Strain and add a cup of cold cooked chicken, cut in dice and well seasoned. Turn on a buttered platter and sprinkle with buttered crumbs. Make four nests, and in each slip an egg; sprinkle with crumbs and set in the oven until the eggs are firm. This is a dish of nutriment sufficient for a dinner.

KILL AND MAIM CONVICTS

COLLAPSE OF PRISON WALLS DEALS DEATH.

Four Killed Outright, Twenty-nine Injured, of Which Twelve Will Probably Die.

Waynesville, N. C., June 20.—Four convicts were killed, 12 mortally injured and 17 guards and convicts more or less seriously hurt by the collapse of the bull pen in which they were housed in a mountain pass in this county.

The bull pen was near Waterville, N. C., in the heart of the Smoky mountains. The convicts were negroes, leased by the state of North Carolina for work in connection with the construction of the transcontinental railroad.

Capt. J. E. Hoskins of Raleigh, who was in charge of the prisoners, had to be dug from the debris. He suffered several painful injuries. Guards J. E. Nichols and Ed McKerney were slightly wounded.

The bull pen was built of heavy logs and the weight of the roof caused it to collapse. The structure slid down the mountain side without warning for 65 feet and not one of the occupants escaped uninjured.

The fact that the convicts were burdened with ball and chain rendered them helpless and is responsible for the great number of injured.

FIRST TO REACH LIEGE

In "Four Nations" Air Race, Sixteen Cover First Stage—American Among First.

Liege, Belgium, June 20.—Sixteen of the 48 aviators who started from the Vincennes military grounds Sunday, in the ill-fated "four nations" race, have arrived at Liege, 212 miles. Nine of these 16 arrived from Rheims. They were Kimmeling, Tabuteau, Prevost, Wynhalen, Amergo, Bathiat, Gilbert, Verratt and Le Lasseur arriving in the order named.

Those who arrived in the evening were Vidart, Vedrine, Weymann, the American; Beaumont, whose real name is Conneau; Barra, Laval and Garros.

The second stage of the race will be to Utrecht, Holland.

Socialists Support McNamara.

Chicago, June 20.—Chicago Socialists, in resolutions, pledged their financial support to the defense of John J. McNamara, secretary and treasurer of the International Iron Workers, accused of having directed the operation of dynamites. The meeting was attended by several thousand Socialists. Victor L. Berger, a leader of the Socialist party in Wisconsin, the only Socialist congressman, spoke on behalf of the accused labor leader, and Frank M. Ryan, international president of the Iron Workers' union, declared the arrest of his fellow officer a result of a "conspiracy to disrupt our organization."

Loss by Storm \$100,000.

Danville, Va., June 20.—Damage estimated at \$100,000 to \$200,000 was caused by a severe wind, rain and electrical storm, the worst recalled in this section, that swept over this city. The heaviest damage was to buildings in the business section.

Cotton mills, tobacco factories and storage plants were unroofed, trees and shrubbery destroyed, chimneys, porches, telegraph, telephone and electric transmission poles and wires were blown down. Telegraph and telephone communication and trolley service were all put out of commission.

Two Women Die in Burning Ship.

Boston, June 20.—Two women lost their lives and five men were injured when the wooden passenger steamer Gov. Andrews of the Nahant line was burned to the water's edge at a wharf in East Boston. The bodies of Harriet Kelly and Elizabeth McNeil, both stewardesses, were recovered by the police. The injuries of the men were not serious.

Pressmen Dedicate Home.

Rogersville, Tenn., June 20.—Delegates representing the local branches of the International Printing Pressmen and Assistants' Union of North America gathered at Hale Springs, to attend the annual convention of the organization. The delegates will assist at the dedication of the home recently completed for aged and indigent members of the union.

H. E. Dickerson, of Jackson, Tenn., is here this week looking over the field with a view to establishing a branch factory of the Anchor Block Works in Hickman. The company's headquarters are at Liverpool. They make pulleys, boat oars, golf sticks, etc., working up small timber, of which there is an abundance in this section. He seems to be favorably impressed with the outlook here.

Dr. Drew W. Luten arrived home from Baltimore, Md., this morning to visit his father, Dr. S. W. Luten. The young doctor, who graduated at John Hopkins a few days ago, will leave for Pittsburgh, Pa., in a short time.

We can show you any grade of wall paper you want at a very moderate price.—Fethe & French.

Sam Salmon was in Tiptonville on business yesterday.

Lightning Cause Fire.

The residence on the old home place of S. L. Dodds, short distance east of Hickman, and known as his east farm, was struck by lightning Saturday night during the storm and was burned to the ground.

Robt. DeBow, who has charge of the place and his housekeeper, were away at the time. The contents as well as the house, were a complete loss. All that was saved was the clothing which the occupants had on.

The house was insured for \$1000 and was worth about \$2500. No insurance was carried on contents. This place is one of the old land marks of this vicinity. We are told by an old citizen that this house has stood 68 years within his recollection. It is the old home and birthplace of the Dodds' and for that reason its loss is more especially regretted.

More Railroad Talk.

The Paducah Sun on Wednesday afternoon printed a special from Metropolis, Ill., as follows:

"The reason for the renewed activity of the Burlington purchasing agent has come to light. More property on the river front has been purchased, and officials of the road now assure the people of Metropolis that work on the bridge across the Ohio river will be started as soon after July 1 as the material can be assembled on the ground. August 1st is fixed as the latest date for the inauguration of active work.

"It is also announced that within sixty days work on the right of way purchased from the Paducah & Northern railroad from Metropolis Landing, Ky., to Paducah, and for a belt line around the latter city, will be commenced. This is to connect Paducah with the bridge site.

"The Burlington offices have been busy selecting routes and preparing for operations the last several months, and the route into Paducah has been decided upon, maps made and plans completed."

In the same connection the Sun says the Chicago, Memphis & Gulf railroad is working towards Paducah from Hickman; that surveyors are working out of Clinton and the construction crew is engaged on the right of way from Hickman to Clinton.

The Sun has been misinformed. Work between Hickman and Paducah has not yet begun, but will likely be before another frost.

Some of our exchanges are trying to reach a foregone conclusion that McCreary will win in a walk. Well, you can't always "sometimes tell." Mr. Addams might be in it; there's still another chapter.

Circuit Court.

J. W. Ward vs. I. C. R. R. Ward shipped 8 mules and 1 horse from Oakland, Miss., to Fulton, Ky., and he claims that some of the animals were handled roughly by the road and that he is damaged to the tune of \$195.

Pryor Seay vs. Western Union Telegraph, Co. Seay was at Milan, Tenn., when his father died near Fulton, and that he never received a telegram which was delivered to defendant notifying him that his father was dead and of the date of the funeral. He prays for \$1500 damages.

Hale & Ward vs. N. M. Calcott Co. Plaintiffs sold defendant some land with restrictions that ash timber of above 12 inches at the stump was not to be cut off. Plaintiffs claim they are damaged \$150 and pray the court for an injunction to restrain them from cutting any more timber.

Mrs. Lena McDowell vs. M. P. McDowell. Suit for divorce.

Died at Age 83.

"Grandma" (Mrs. Bettie) Roper, one of the oldest citizens of this county, died at the home of her daughter, Mrs. Jeff Davis, Thursday, June 15, of the infirmities due to advanced age. Mrs. Roper was 83 years of age last October, and until very recently bore the weight of her many years with comparative ease. The greater part of her life was spent within the borders of Fulton county, moving with her parents to this section when she was a mere child.

Mrs. Roper was born near Waverly Tenn.

She is survived by two daughters, Mrs. Lee Rose, of near Hickman, and Mrs. Jeff Davis, at Cayce.

Funeral services were conducted by Rev. Wood, of Cayce, after which the remains were consigned to their last resting place in Rush Creek graveyard, Friday, where a large number of deceased's friends paid their last respects.

The grandeur of age and her beautiful life was a continuous benediction to those yet younger in years. Her entire life was one of goodness and a model of christian womanhood. For more than half a century she had belonged to the Methodist church, and lived up to its teaching in every respect. Her friends were legion and the news of her death will be received with deep regret.

The Courier extends sympathy to the bereaved relatives.

Never suspect a friend of doing you wrong until the proof of it is as plain and as clear as the sun at noon on a cloudless day, and then,—yes, even then do not accuse or censure until you have heard from his own lips his version of the supposed wrong. If you were ever a friend to him he is certainly entitled to that much forbearance and consideration. If this rule was practiced, many a misunderstanding would be averted, and many a headache spared.

Boys, you have but one mother; care for and spare her. She is not a beast of burden to drive along the highway of life. There is no love like your mother's love; you may not know it now, but you will some day.

The need of some place to drop down for a moment and forget things is a crying one in most homes. There ought to be enough sofas around to accommodate all the family. Five minutes rest will prevent many a family row, and how can you get rest if you have to pull shams off the bed and roll up the coverlid. A shabby old lounge, where you can get at it is worth its weight in gold; and you won't want to die half so many times if you make use of it.

Teach children to be polite. Teach them there is nothing but goodness of heart of so much durability as a pleasing deportment. They will lose the idea after awhile that it is smart to be pert and boisterous and take pride in being little ladies and gentlemen. Teach them say, "How do you do?" or "Good morning" to everybody with whom you are acquainted; never to contradict, whisper, hum, beat a tattoo with the fingers on the furniture or roll around in lounging attitudes in company; to say "Yes Ma'am," and "No sir." "What Ma'am?" "If you please," and "Excuse me," if it is necessary to pass before any one, or to leave the table before the rest, and never to do any of the things for which it is necessary to ask to be excused unless it is absolutely unavoidable; not to toss things instead of handing them; not to listen to anything not intended for their ears; not to refuse to give the whole to a visitor when half will not do. A polite child is the best of companions, but a rude one is a troublesome nuisance and

will find himself learning at eighteen or twenty, things, which should have been taught when a child.

A happy home, whether it consists of two or twelve members is one where love presides at the board and watches over the couches; where each person loves himself last and considers the other first; where the irritable word is restrained and the affectionate thought given utterance, and where each is glad in laboring for the other's comfort and relieving the other's cares.

If there is one thing above another a young man should be ashamed for doing, is loafing without aim or purpose or profit, on the streets or in stores day after day, all week. If you have nothing to do, stay at home—a part of the time at least. No young man with any self respect will content himself with aspiring to no higher reputation than that of a chronic loafer and store box magnate. Nothing will so blunt the higher faculties of the mind as inactivity; and no inactivity is so baneful and malevolent in its effect as that voluntary idleness termed, loafing.

Troubles come to all of us. The past is strewn with broken expectations and inconsolable griefs. Death has left its shadows across almost every heartache and its constant ravages ever approaching near to us fill the bravest spirits with terror. But to us the rainbow of hope has been ever present. We have never believed that existence was purposeless. The same all-prevailing Power, whose handiwork, jeweled the heavens with stars, who leveled the plains who lifted up the mountains and taught the rivers to run down to the sea, designed our being and contemplated our destiny.

If you can have help enough to keep your household machinery in perfect running order without making a machine of yourself, do so by all means. White floors are lovely, shining tinware is very fine, spotless windows and highly polished silver are a delight; the mending basket, emptied every week is much to be desired but there are things of more importance and if it all depends on one pair of hands, one back, and one set of nerves, for Heaven's sake, for your own sake, for your children's sake, don't.

DYNAMITE FOUND IN MAYOR'S SAFE

POLICE SAY OFFICIAL OF MINNESOTA TOWN IS BANDIT BY NIGHT.

OWNER OF BASEBALL TEAM

Arrested Following Safe Blowing, He Asserts He is Victim of Conspiracy and Will Prove That Fact.

Benidji, Minn., June 20.—By day a respected practicing physician and mayor of a Minnesota city; by night the "brains" of an incendiary and robber band, and using his scientific knowledge in the preparation of explosives to be used in felonies. This is the Jekyll and Hyde personality the detectives believe has been revealed by the arrest of Dr. T. T. Dumas, mayor of Cass Lake and owner and manager of the Cass Lake baseball team.

The mayor was arrested in Hibbin, upon his arrival there with his ball team. This followed a battle between a posse and two men caught blowing open a safe at Puposky, near here.

Charges a Conspiracy. The mayor obtained his liberty by giving bonds. He asserted he was the victim of a police conspiracy and declared some one would suffer.

He was present when Superintendent Fielding of the St. Paul Pinkerton branch and Assistant State Fire Marshal Fullerton opened the safe at his office and found six sticks of dynamite and four dynamite caps.

The opening of the safe was preceded by a chase through the woods near Puposky after Mike Davis, who, with Billy Bean was trapped by detectives at Puposky. Bean was wounded and captured. Davis, who is also wanted on charges of having killed a policeman in Chicago and another at Minneapolis, during robberies several months ago, escaped.

It was feared Mayor Dumas, who is credited with having planned the robbery of the Puposky building, would get word to Davis of his own arrest.

JUDGES WON'T OFFICIATE

So Many Legal Separations in Chicago, the Bench Tires of Marriage Ceremony.

Chicago, June 20.—Chicago was 30 marriage licenses ahead of the first 17 days of the same month in 1910. But it was also 37 divorces ahead of the same period.

The figures for this month show that out of every 100 couples married, nearly 10 seek divorce. Cook county judges seem to have decided that divorce is so nearly the ultimate port of the average Chicago couple that several have declined to perform any more marriages.

"The law compels me to hear divorce cases and grant divorce decrees," said Judge John Gibbons of the circuit court, addressing a prospective bride and bridegroom in his chambers. "It does not compel me to perform the marriage ceremony. I am sorry, but you will have to go somewhere else to be married."

JAMES P. KNOTT IS DEAD

Former Governor of Kentucky and Once Attorney General of Missouri Passes Away.

Lebanon, Ky., June 20.—James Proctor Knott, former governor of Kentucky, is dead at his home here, at the age of 81. He had been enfeebled for several years.

Mr. Knott served in the national house of representatives for several terms and before coming to Kentucky was attorney general of Missouri.

Former U. P. Official Dies. Chicago, June 20.—Sylvester T. Smith, former general manager of the Union Pacific railroad, and of the Denver & Rio Grande, died in Chicago. He was 72 years old and long had been an invalid. The body will be cremated and the ashes taken to Mr. Smith's old home in Buffalo, N. Y.

Establishing a new record by eleven days for first appearance of the new cotton crop, a bale of Cameron county staple was received on the Houston Cotton Exchange Monday.

Part of the bale's journey from Cameron county to Houston was on a special train because it was reported other first bales were en route for the local exchange.

The cotton was sold at \$2.05.84 per pound, the total weight being 493 pounds and the price \$1015. This was the highest price ever paid on the Houston exchange for a bale of cotton. It was classed as strict middling.

Auto Hit By Cars.

H. B. Horner, president of Horner Grain Co., at Union City, was out riding his automobile Tuesday, and while passing the Mobile & Ohio railroad was run into by three or four box cars, which were running without an engine on the M. & O. tracks. His wife had both lower limbs and right arm broken, and the doctors think she cannot live. One child was badly bruised but no limbs were broken. Mr. Horner escaped without any bruises, and one of the children crawled out from under the cars after the accident not bruised. The auto was torn all to splinters and carried a hundred feet from where it was struck by the cars.

Girls of a marriageable age do not like to tell how old they are, but you can find out by following the subjoined instructions, the young lady doing the figuring: Tell her to put down the number of the month in which she was born then to multiply it by 2, then to add 5, then to multiply by 50, then to add her age, then to subtract 365, then to add 115, then tell her to tell the amount she has left. The two figures to the right will tell you her age and the remainder month of her birth. For example, if the amount is \$22, she is twenty-two years old and was born in the eighth month (August). Try it.

Whipple Gets Route.

Henry W. Whipple, one of the seven who took the examination for carrier on rural delivery route No. 6, received word Friday that he was the successful applicant.

Whipple will, however, be transferred to route No. 5, and A. J. Walker, of No. 5, will take No. 6.

The salary paid on route No. 5 is \$630 a year, and on No. 6 it is \$900. The changing of places was granted on the request of Mr. Walker, the old carrier on No. 5, whom the department gives his preference of open jobs by reason of continued service.

W. J. Barry has been temporary carrier on the new route, and gave absolute satisfaction.

First Cotton Bloom.

The first cotton bloom we have seen this year was brought to this office Friday by our good friend J. S. Maddox, of 2½ miles west of Hickman.

The plant is a fine specimen; besides the bloom, it contained thirty-four squares. Mr. Maddox says he has 75 acres almost as good as the plant brought here.

The first cotton bloom brought in last year was brought by the same man. The crop this year is 27 days ahead of last year's, the first bloom of 1910 having been noticed on July 11th.

Long Drouth Broken.

A drouth of 49 days was broken with a good rain Saturday night and Sunday night. Some of the oldest citizens claim that this was the longest period of dry weather in this section within their recollection.

Crops have not suffered as much as might be expected, but the acreage was cut short by a large per cent. In fact, the dry weather has given the planter a chance to thoroughly work both corn and cotton, and good crops are yet promised as a result. Only in a few instances have the growing crops been burned up. With a reasonable amount of rain from now on, we will harvest good crops, and the threatening cloud of hard times will vanish. And let 'er go.

IDEAL POINT FOR MANUFACTURING PLANTS.

Hickman Needs Them and Possesses Remarkable Advantages
Afforded by few Cities—Large or Small. United Effort
Should be Made to Place Facts Before Outside
World. Materials in Abundances.

We recognize the fact that the GROWTH of any town depends largely on MANUFACTURING industries. Without manufacturing to give employment to the PEOPLE, people cannot subsist, and it takes PEOPLE to make a city.

We recognize, furthermore, that a city cannot hope for MANUFACTORIES to seek it unless they can be shown GENERAL CONDITIONS to warrant them in locating at THAT particular place.

We have a NUMBER of reasons for our faith in HICKMAN, KENTUCKY, as an extraordinarily inviting location for MANUFACTORIES of all kinds.

FIRST: All factories NOW HERE pay LARGE DIVIDENDS and continue to enlarge from year to year.

SECOND: We have, right at our door, a super-abundance of RAW MATERIALS for almost all kinds of WOODWORKING plants.

THIRD: This is an unusually large COTTON MARKET and could be made very much larger if we had the FACTORIES to consume the cotton, and the by-products, that is raised in this territory.

FOURTH: We have as fine BRICK AND TILE CLAY IN ABUNDANCE as can be found anywhere, and conveniently located.

FIFTH: We have an inexhaustible supply of CLEAR SAND suitable for making GLASS.

SIXTH: We are in the very heart of as FINE CORN country as America affords and we also produce large yields of WHEAT, oats and clover.

SEVENTH: This is a splendid STOCK COUNTRY and there is ample, cattle, hogs and sheep raised here to supply a fair sized PACKING PLANT.

EIGHTH: The HIDES from these same animals will support a fair sized tannery.

NINTH: We have a MAIN LINE OF RAILROAD directly into the IRON FIELDS with a RIVER FREIGHT RATE that will justify its being shipped here to be MANUFACTURED and we are also on a direct RIVER LINE to the PITTSBURGH IRON FIELDS, giving us an advantage over any inland city as an IRON MANUFACTURING point.

TENTH: We have at present TWO lines of railroad and a BELT LINE around the entire city, with a splendid assurance of another NEW RAILROAD soon. We also have the MISSISSIPPI RIVER, with its present boat lines and the great SHALLOW WATER LINE will be in operation before the close of 1911, all of which gives HICKMAN unusually GOOD SHIPPING FACILITIES.

ELEVENTH: We have a FREIGHT RATE, both in and out, as LOW as any LARGE CITY.

TWELFTH: We are convenient to the COAL FIELDS of Kentucky and Illinois with VERY LOW FREIGHT RATES.

THIRTEENTH: We have NO LABOR TROUBLES and the laborer can live at a minimum cost here and can work at a REASONABLE WAGE.

FOURTEENTH: HICKMAN is as HEALTHY a place to live as can be found in the country, the SCHOOL and CHURCH advantages are excellent and the PEOPLE are of a HIGH CLASS and congenial to live among.

FIFTEENTH: We have a large number of excellently located FACTORY SITES on the BELT LINE RAILROAD and industrial spurs, convenient to RIVER and WHARF, which will be supplied FREE to any FACTORY that will locate on them. These sites are OUTSIDE of the CORPORATION and the state and county tax is only \$1 on the \$100.00.

SIXTEENTH: Geographically, there are FEW CITIES so desirably located to serve the WHOLE CONTINENT and with the completion of the PANAMA CANAL SEA-GOING vessels will line OUR WHARVES placing HICKMAN MANUFACTORIES in close touch with the WHOLE world.

There are many other reasons that we could name why HICKMAN, KY., is an unusually inviting location for factories of all kinds, but the above should be sufficient to encourage an investigation from any live manufacturer desiring a location.

Building a Great City.

The destiny of every great city depends materially upon the conditions under which it has its beginning.

IDLE FANCY is good material for air castles, but a city, to be substantial, must be laid on a practical business foundation. In their beginnings most cities must bond heavily in order to secure the necessary railroads, which are always absolutely essential to the growth and development of any town, for without sufficient transportation facilities there can be no inducement for factories and other business enterprises to locate. However, the overburdening of a city in its infancy with heavy taxation usually proves disastrous, thus leaving most new towns with an intricate problem to solve.

But HICKMAN, KENTUCKY, is one exception. It has the railroads already without encumbering its early investors with the burden of a bonded indebtedness. It also has the MISSISSIPPI RIVER which neither a bonded debt nor political patronage can give to any city less favorably located.

And further, it is blessed with a fertile farming country surrounding it which only nature can bestow and its geographical location is such as to give to HICKMAN, KENTUCKY, a position of commercial importance unsurpassed by any other American city.

With the legions of obstacles removed, which commonly confront early promoters of a city, and with the manifold advantages which nature has so peculiarly lavished upon this immediate point, there is nothing left to provide for except giving publicity to these stupendous resources and advantages; so that the outside world and outside capital may come in and share in the development and the benefits.

For this last named purpose the Industrial League and the Commercial Club have both been organized with sufficient capital to put forth a campaign of advertising that will herald the name of HICKMAN, Kentucky, throughout the confines of this nation and to the four corners of the earth.

The League has secured sufficient grounds to meet the immediate requirements of our rapidly growing city. Within these grounds there are more than 16,000 lineal feet of railroad frontage available for factory sites, most of this being on the belt line, and these factory sites are offered FREE to any manufacturer that will occupy them. On this ground there are also 3,000 feet of river front, affording wharf space sufficient to handle the commerce of an empire.

These grounds lie most beautifully and are laid out on practical lines with a view of convenience as well as beauty and the whole scheme at a glance, presents an attractive aspect for all purposes.

Upon this unquestionably solid foundation, we extend to manufacturing and business enterprises of all kinds and to the people of every calling and condition a most cordial invitation to come here and build their future and fortune.

Millinery Clearance

Have you visited our Millinery Department this week? If not, you've missed a chance to save from one-fifth to one-half on anything you may need in the millinery line.

We are holding our Clearance Sale of Millinery, and if low prices will sell hats we'll not have one left in two weeks.

Our showing of Trimmed Hats is not only the smartest and handsomest in Hickman but it is by all odds the largest, so a Clearance Sale here means something to everyone needing millinery. All hats are going from

1-5 to 1-2 Off

The best hats are sure to go first. Come at once.

SMITH & AMBERG

Lee Campbell, one of the best fellows that ever stood at the pilot wheel of a steamboat, was shaking hands with old Hickman friends first of the week. He returned to Cairo Monday.

Prof. B. F. Gabby and family left last week for Mayslick, Ky., to spend the remainder of the summer with home folks.

Mrs. A. R. Stone has been on the sick list this week.

Robert Isler and wife arrived here from Pensacola, Fla., Sunday, to spend a few days with Bob's parents, Mr. and Mrs. R. M. Isler. His bride is certainly a pleasant, charming little lady and what perplexes us is how Bob ever managed to put himself in her good graces. We know from experience, however, that even the most sensible ladies can sometimes, at an unguarded moment, be coaxed into saying "yes".

Have you cut your weeds?

Short of Brick.

Work on the new \$3,500 West Hickman school building has been delayed a month because our local brick manufacturers are swamped with orders and cannot get brick on the ground.

This new building is a gift from Gen. H. A. Tyler. Wm. Stoker has the contract to do the building.

It is hoped that the building will be complete and ready for the fall term of school, but work will have to be rushed to complete it.

If you have the itch, don't scratch. It does not cure the trouble and makes the skin bleed. Apply BALLARD'S SNOW LINIMENT. Rub it in gently on the effected parts. It relieves itching instantly and a few applications removes the cause thus performing a permanent cure. Price 25c, 50c and \$1.00 per bottle. Sold by Hickman Drug Co.

Notice.

Beginning July 1st, all telephone bills will be due and payable at our office on the first day of the month and must be paid before the 10th or your telephone service will be discontinued without notice. Please remember this new ruling.—CUMBERLAND TEL. & TEL. CO., by D. Owens, Manager.

Boost a little.

W. A. Dodds and his bricklayers effected a compromise last week, and work was resumed on his new brick building after a week's "walk-out."

Several Hickmanites attended the Central Committee meeting at Fulton, Monday. Among others Bernie Hughes, Jno. Dillon, C. G. Schlenker, F. S. Moore, Percy Jones and Golder Johnson.

Mayor Dillon is home from an extended trip including Little Rock, Hot Springs and—well, it would be hard to tell. In short, our Mayor has been out of town longer on this trip than any time since the civil war.

YOUR DAUGHTER WILL NEVER COME TO THIS IF YOU HAVE NO MONEY IN THE BANK

YOUR daughter will never come to this if you have no money in the bank. If you were to investigate the families who have accomplished daughters, you would find that in practically every instance a bank account is started for their education when they are children. You envy such people, so will your children when they grow up unless they have the same advantages. So think how much a bank account will mean to them and start one today.

UNCEASING MISERY.

Hickman Kidney Sufferers Get Little Rest or Comfort.

There is little sleep, little rest, little peace for the sufferer from kidney trouble. Life is one continual round of pain. You can't rest at night with a bad back, with twinges and "stabs" of pain, with annoying urinary disorders, backaches, lameness and nervousness. You can't be comfortable at work with darting pains and blinding dizzy spells. Neglect these ailments and serious troubles follow. Begin using Doan's Kidney Pills at the first sign of disorder. You will work better as the kidneys get better, rest better as your back grows stronger.

Proof in Hickman testimony:

C. A. Watson, of Hickman, Ky., says: "For some time I was a victim of kidney complaint. There were pains in the small of my back, which were always more severe when I stooped, or lifted. My back ached at night and when I arose in the morning, I was very lame. I became tired and occasionally suffered from nervous spells. Headaches bothered me and I was subject to dizzy spells during which there was a blurring of my sight. When I caught cold, it settled on my kidneys and at such times, the passages of the kidney secretions became too frequent. This weakness was particularly annoying during the night and I was often forced to arise several times. Learning of Doan's Kidney Pills, I procured a box at Helm & Ellison's Drug Store and two days after using them I received relief. After I had taken the contents of the box, I was cured. I never lose an opportunity to recommend Doan's Kidney Pills to other kidney sufferers and shall always keep them in the house."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Leg Crushed Off.

A deplorable accident happened here Tuesday morning at 8:30, when C. W. Hall, in the employ of the Mengel Box Co., slipped and fell beneath the wheels of a log train, the wheels passing over the left leg at the knee. The bones in the joint were crushed to a pulp and the limb severed with the exception of a small piece of skin.

Hall works under Foreman Chas. Budder, and was with a crew unloading logs in the Mengel yards. He had left his canthook on one of the cars and as the train was backing up he reached or rather jumped to get the hook, and fell under the trucks. He was dragged 53 feet before the train could be stopped. Besides cutting his left leg off, the right foot was badly crushed and one arm badly lacerated. Those who saw the accident say the car wheel skidded, while the rail and flange of the wheel knawed their way, like dull scissors, through the limb.

The victim was hurried to the offices of Drs. Curlin & Curlin, who, with the assistance of Dr. Blackford, amputated the left limb about half way between the knee and thigh, or what is known as the middle 3rd of the thigh.

Mr. Hall has been in Hickman about four months, coming here from Gleason, Tenn. He has a wife and two children, who reside with him in West Hickman. The unfortunate young man is about 26 years old.

The accident happened on the private tracks of the Mengel Box Co., and the cars were being backed and placed by the little logging locomotive used in the yards for that purpose.

Teething babies always have a hard time of it when this process occurs in hot weather. They not only have to contend with painful gums but the stomach is disordered, bowels loose and the body uncomfortable. The best help you can give the little sufferer is McGEE'S BABY ELIXIR. It corrects sour stomach, cools and quiets the bowels and helps digestion. Price 25c, and 50c per bottle. Sold by Hickman Drug Co.

Rules for Sprinkling.

The following ordinance is published for the benefit of persons using water in sprinkling:

RULES AND REGULATIONS GOVERNING WATER AND ELECTRIC LIGHTS: Sec. 10. Hose for sprinkling front areas and side-walks shall be used only from the 1st of May to the 1st of November, from 7 to 9 o'clock in the morning, from 1 to 2 in the afternoon, and from 5 to 8 o'clock in the evening. Sprinkling must be confined to one's own front, and not extend beyond the middle of the street, and to be within rates must be only through 1/4-inch nozzle, the use of a larger nozzle will subject the party using it to double rates. Use of a hose without nozzle is prohibited. Garden (lawn or yard) Sprinkling is one thing, Street Sprinkling is another, and both must not be indulged in unless both are paid for according to rates.

The foregoing speaks for itself and it is needless to say that what was good for the city is good enough for us.

PLEASE BE GOVERNED ACCORDINGLY.

Bunch of Dagoes Strike.

The Mengel Box Co. undertook to work dagoes instead of negroes at heavy work on their 10,000 acre tract of timber at Craig's Landing last week. Negroes can't light in that section, so the company procured 42 Italians through a St. Louis labor agency. When the company paid off the dagoes, \$2 was deducted for each man which had been advanced for transportation. The dagoes promptly went on a strike Friday morning. They were so wrought up that one threw his money in the river, and all joined in throwing away flour and other provisions. There was a hum of dissatisfaction in the camp and Foreman W. J. Logan suspected he was in danger of their vendettas, and a small arsenal was carried by the white folks who feared an outbreak. The Italian interpreter was finally made to understand that the company had paid for the tickets, and the deduction was proper, although the Italians had paid the labor agency for their fare in advance. They were loaded on the Stacker Lee Saturday night for St. Louis, saying there would be a settlement at the labor agent's office when they got to St. Louis. Thus ended Mengel's experience with dago labor in the timber business.

Practical Fashions

LADIES' EIGHT GORED SKIRT.

The skirt illustrated has many possibilities. It may be made with normal or Empire waist line, and in round or instep length, thus furnishing either a dressy or a utility model. The closing is placed at the left of the panel which forms the front of the skirt. There is a similar panel in the back and the closing may be made at one side of it if preferred. This design is equally suitable for silk, satin, crepe, broadcloth, camel's hair or serge. It will be a good model for braiding.

The pattern (5247) is cut in sizes 22 to 32 inches waist measure. Medium size requires 2 1/2 yards of 44 inch material.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

Aviator Cord and Wire.

The arrival of the aeroplane has given us a new industry, or rather a modification of an old one, namely, that of manufacturing aviator cord and aviator wire. The Roebblings have devised a special kind of wire aviator cord to be used for stays on aeroplanes. The cord consists of a number of fine wires of great strength stranded together. The strength of the different sizes runs approximately from 2,000 to 2,300 pounds. For steering gear a more flexible cord is provided, composed of six strands of seven wires each, with a center of either cotton or wire. The aviator wire differs from aviator cord in that it consists of a single wire instead of a number of wires twisted together. The wire is made in twelve sizes, with a breaking strength that varies from 2,000 pounds to 175.—Scientific American.

Working Night Crew.

The proprietors of the Hickman Steam Laundry have found it necessary to run at night in order to take care of "family washing," as ten hours per day is required to handle their regular run of piece work.

A crew of four in charge of Foreman Leslie Owen started Monday night doing "family washing" at pound rates. The night crew works all night, and the laundry will continue a 24-hour run so long as is necessary.

For particulars and rates see announcement elsewhere in this issue.

C. G. Schlenker seems to be the "candy kid" when it comes to offering resolutions in district and county conventions. Resolutions bearing his trade-mark are eagerly sought and hurriedly adopted. The Leader leaves the impression that the committee meeting at Fulton Monday, was harmonious—smooth as silk—peachy and creamy. The meeting was held for the purpose of perfecting plans for holding the state primary election on July 1st. This matter was turned over to Secy. J. T. Dillon and Cham. Mott Agers.

Oil Now Made Solid.
Tank steamers taking oil the world around may in time be a thing of the past. Now, they have got up solid oil, and they declare it is almost pure petroleum. Slight pressure, such as squeezing a cake of it in the hand, causes the oil to ooze out. The cake of petroleum, perhaps packed into a wooden case lined with tinfoil, thus preventing waste or evaporation, may be shipped all around the world.

a candidate for the office of State
Treasurer, subject to the action of
the Democratic primary, July 1st.

VERNICOL reproduces the colors and effects of hard woods. It is not affected by heat or cold, soap or water, and when used on floors does not show heel marks. It is designed for finish on—

FLOORS, hard or soft wood, old or new, in good or bad condition, painted or natural. It is a very durable, attractive and economical floor finish. Nothing wears better.

WOODWORK new or old, of hard or soft wood. It makes the woodwork a part of the color scheme of the room. It covers the bad painting and renews a finish that has been marred or worn. It is a great improvement for kitchen wainscoting, refrigerators, kitchen sinks, bath rooms, &

FURNITURE. It helps to harmonize the furniture and decorations, renews old articles, giving them new life and beauty.

Thursday afternoon, from three to five, Mrs. W. A. Naylor entertained quite a number of friends in honor of her guest, Mrs. C. M. Johnsey, of Shannon, Miss. Miss Swan Naylor served punch in the dining room as the guests arrived. Table numbers and score cards were hand painted daisies. Chocolate cream and angel food were served. The guests were Mesdames C. M. Johnsey, Val Carpenter, S. W. Luten, M. F. Naylor, S. J. Abbrington, of Jackson, S. D. Luten, W. J. Barry, E. D. Johnson, Ben Hertweck, Joe Threlkeld, J. W. Chicago, Ill.—“I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—he said it was no good and wanted me to try something else, but knowing all about it I insisted and finally got it, and I am so glad I did, for it has cured me.”

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, there is nothing that will."—Mrs. JANETZKI, 2963 Arch St., Chicago, Ill.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little money.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Leather Trust Skins the Shoe Wearer Both Ways

The price of Trust-tanned leather is up—its quality is worse than ever before in the history of the trade.

The cause of it all is that the Leather Trust shut down its tanneries—and is putting its second-grade leather on the market at an increased price.

How many ordinary shoe manufacturers do you suppose can afford to refuse this second-grade leather? Not one! You, the shoe buyer and wearer, have got to keep both eyes open and protect yourself.

You can get honest shoes if you want them. You can get them 50 cents to \$1.00 cheaper than you are now paying for ordinary shoes.

Right here in this town you can get Endicott-Johnson shoes—made by the only shoe manufacturers in America who tan their own leather—**independent of the Leather Trust.**

Endicott, Johnson & Co. buy their hides in the open markets of the world. They own their tanneries. They build their shoes from the ground up of honest leather. They sell direct to your home shoe dealer.

The Endicott-Johnson dress and business shoe is the **ENDWELL** (Good-year Welt). It sells for \$3.00, \$3.50 and \$4.00. It is a handsome shoe. It will give you service and comfort that you cannot get in any other shoe at any price.

You are not limited as to style in ENDWELL shoes. You can have any last and shape of toe—right up to the minute. Shoe or Oxford—Lace and Button—your choice of all the colors of leather.

Identify it by this name—stamped in every shoe—

ENDWELL

EXCLUSIVE DEALERS

Shoe buyers who live outside the city where this paper is published can learn the names of their home dealers who carry ENDWELL shoes by writing to Endicott, Johnson & Co., Endicott, N. Y.

A. M. Tyler and wife were in Tip-tonville Friday.

Miss Mary Kimbro is visiting relatives at Crutfield.

Hugh O'Donnell, of St. Louis, was here this week on business and was the guest of C. T. Bondurant and wife.

Thursday evening, Mrs. Tom Thomas entertained a number of friends at Rook in honor of Mrs. Anna Smith of Troy, and Mrs. Lela Bright Price, of Louisiana. Punch was served in the dining room as the guests arrived and later refreshments of cream and cake. The guests were Dr. and Mrs. P. B. Curlin, Mr. and Mrs. R. L. Bradley, Mr. and Mrs. Ben Hertweck, Mesdames A. A. Faris, W. J. Barry, S. B. Parker, C. L. Walker.

Lester Smith and Louis Jones returned to Craig's Landing Sunday.

Mrs. R. S. Murrell and little granddaughter, returned to Louisville Saturday morning.

Bruce Powell, R. L. Matheny and Corman Vance went to Tyler Friday squirrel hunting.

Mrs. Harry Stubbs and children, of Blodgett, Mo., are the guests of her sister, Mrs. Chas. Jackson.

Mrs. Otto Hertweck and Mrs. Percy Jones have returned from a visit to Mrs. Rilla Ford, in Cairo.

Children that are affected by worms are pale and sickly and liable to contract some fatal disease. WHITE'S CREAM VERMIFUGE expels worms promptly and puts the child on the road to health. Price 25c per bottle. Sold by Hickman Drug Co.

Court of Appeals.

In the court of appeals a decision was handed down holding that a sheriff is not entitled to fees for attending sessions of the quarterly court, and that the sheriff, and not the county, must pay for printing tax receipt books and county claim books. The decision was given in the case of Graves county against Wallace, sheriff, from the Graves circuit court.

The court held the issue of \$11,000 of school bonds for the Cadiz graded school as valid. The decision was given in the case of McKinney against the board of trustees of the Cadiz graded school, on appeal from Trigg county. The court says the election was valid even if two similar elections were held in the same year. The court further says that if the bond issue voted on was larger in amount than authorized by the constitution, that fact would not affect the legality of the election, as the trustees can issue only bonds in the amount within the constitutional limit.

No Danger

In taking Dr. Bell's Pine-Tar-Honey for coughs and colds. It contains no habit producing drugs. Look for the Bell on the Bottle.

Little Richard Prather has been sick for several days.

W. J. Logan and Swayne Walker returned to Craig's Landing Sunday.

Clyde Farrow, of Caruthersville, visited J. E. Fuqua and family several days last week.

Misses Ruth Walker and Florence Barry went to Troy, Monday, to visit Mrs. Anna Smith.

Miss Laura Brown spent Saturday night and Sunday with her sister, Mrs. J. M. Roper, near Shuck Switch.

Mrs. Travis has returned from Union City where she has been visiting. Her daughter, Mrs. Mattie Burdick, of Nashville, is visiting her for a few weeks.

Miss Beas Harper, who has been visiting Misses Laura and Marine Brown, returned to Union City Friday. She was accompanied home by Miss Annie Lee Brown.

Flowers Given to Convicts.

Every convict in the Frankfort penitentiary was given a rose or some pretty flower and exercises of a semi-religious nature were held during the day. It was Flower Mission day at the prison and the convicts were given a full holiday, no work being done in any of the shops. The late Mrs. Susan M. Warner, of Louisville, originated the idea of Flower Mission day at the prison and for many years one day in the year has been set apart for the distribution of flowers among the prisoners. The convicts showed surprising sentiment and seemed to appreciate the flowers which afforded a bit of color in their dull routine of life.

Call on Banks for Statement.

Secretary of State Bruner issued a call for a report from all the state banks as of June 7th, and notices were mailed. The comptroller of the currency at Washington has issued a call for reports from all the national banks for June 7th, too, and every state in the union will also issue a call for reports from the state banks on that date. This united action in calling for reports from all the banks in the United States as of the same date, has been taken after conference with the comptroller and this will be done once a year hereafter. In this way the exact amount of money on deposit in the United States can be obtained with absolute accuracy.

On the Glorious Fourth.

The executive committee in charge of the Fourth of July picnic to be given by the Knights of Columbus held a meeting to take the first steps in arranging plans. Mrs. C. E. Collins was appointed chairman of the ladies general committee and she will name a number of sub-committees.

Arrangements have been made for splendid music and a number of refined and entertaining amusements. It is believed this will be the most complete and enjoyable picnic ever given in Frankfort, as nothing will be overlooked that will add anything to the pleasures of the day. Two or three fine speakers have promised to be present.

Holt Will Case.

The special term of the Franklin circuit court, at which the famous Holt will case will be tried, will be presided over by Judge L. P. Freyer, of Butler. This case has been tried once, but the jury could not agree on a verdict. James Holt, resident of this county, died leaving most of his property to the Masonic lodge of Jeffersonville, Ind., to be used for the comforts of orphans of Masons.

His relatives were cut out of the will, but as he was not married the will has stood the test of the law to date. A nephew is suing to break the will.

Judge Jones Presides.

Judge Samuel Jones, of Glasgow, has been appointed special judge to preside over the remaining term of the Hardin circuit court by Gov. Willson. Special Judge T. F. Burhead was compelled to return to his district in order to preside over the Ohio county circuit court. Judge Weed S. Chelf, the presiding judge of this district, who has been ill for some time, is unable to preside at the present term.

Dr. T. J. Crice was appointed first assistant and Dr. M. R. Davidson, third assistant superintendent of the Lakeland asylum, at a meeting of the board of control. The board decided to raise the scale of wages to be paid the attendants in all of the asylums \$2.50 in advance of the uniform wage scale agreed upon some time ago. This will take effect July 1.

Orders have been issued by the adjutant general for the mustering in of a new company of the Kentucky State Guard at Pineville. The company is to be composed of good men and it is expected to make a good showing at the state encampment, as it has some fine rifle shots among the recruits.

Todd's Report.

On account of the demand for the report of McKenzie R. Todd, state inspector and examiner, in which he discusses the condition of the offices of County School Superintendents, Prof. Ellsworth Regenstein, Superintendent of Public Instruction, is having printed 30,000 copies of the report, which will be sent over the state. Prof. Regenstein regards the report as important and thinks it would help to have the teachers of the whole state and leading men in every county read the full report.

Letter from Syria

BY A. S. BARKETT

Judedit, Margeon,
Syria, Turkey.
Messrs. Speer & Sexton,
Hickman, Ky., U. S. A.
Dear Friends:

To the Southeast side about two miles from the City of Naplus we saw the place (said to be) where Jacob, the father of Joseph, lived most of his life. It is a valley between the chains of Mount Naplus and today

the old well still standing and it will be remembered as long as the world lasts. The land in the valleys around there is very fertile and all along the bluff we saw nothing much except olive trees as thick as they can be. I think some of them have been standing there thousands of years. You hardly ever see a dead olive tree. From there we kept going through a mighty rough country, but over a

newly graveled road. That country produces more sweet oil than Kentucky does hog lard. All day we had a hard rain and we stopped in an old hotel about half way between Naplus and Jerusalem. It looks to be an old place for all strangers to stop in there. After feeding man and beast we started on our way to the Holy City. After we traveled about ten miles in a mighty ragged, rough and mountainous country, where we saw the old rocks split in two. The reason for that is because the country is very old. The heat of the sun, the effect of the snow, rain, and ravages of time showing plainly on all that country. In an awfully rough and strange looking valley in the mountains we came to caves and dens dug in and which they used as their homes in and which they used as their homes waiting for some one or a small crowd of travelers to pass that way, when they would stop them and take away everything—money, goods, camels, and horses. Sometimes they would turn them loose, but that was very seldom. Most of the time when a small crowd passed that valley the robbers would stop them, take by force everything they had—even their clothes—and kill every one of them. As all the Bible readers will notice in the olden time when some people from Nazareth or elsewhere wanted to go to Jerusalem at least a hundred or more called caravans would go together to the Holy City on business, such as buying groceries, clothing, etc.

That place looks very ancient and historical, full of springs that burst out of the huge old rocks. I left my kodak at home and I longed for a picture of that noted place. Old towns and villages scattered over the mountains, all of which are of olden time. Some of them are Aine Seana, Aine Jifna, Beer el Zyte, Beery, Sha'fa—all towns of before and during the time of our Saviour.

As mentioned before, the rain was falling hard and we couldn't see very much for the thick clouds. But from what we could see, the country is mountainous, ragged and poor and hard to raise much on; but little barley, wheat and small orchards of grapes, figs and more olive trees.

Arriving in Jerusalem in the evening we went straight to the hotel in Babe el Khaleil, a very fine hotel but in the season all the hotels are full so a man with a family can't have all the conveniences he should have.

We stayed one night as we had to spend several days in the city and wanted to have a nice time and good pace to stay, we went to the Christian neighborhood and rented furnished room with the lady of the house to cook for us, and we were lucky to find good clever people to serve us and treat us as home folks, so we paid our bill at the hotel and moved to our new stopping place. Mother and wife were very much satisfied; also Mabel was very much satisfied as she had a few little girls to play with. That was Tuesday, April 18th.

The City of Jerusalem is in two sections—the old and new town. The old town is inside the old walls built by King Solomon and still standing, and the new city is an addition to the old city, which is built in modern style and owned mostly by Europeans who are mostly Jews, with some Italians, Russians, French, English, Greek with a few Americans and an American Consul. The population of Jerusalem is at least 140,000 and in the eastern season, which is now on, there are probably 60,000 visitors.

Mount Olive is about two miles east of the walls; and Bethlehem is about six miles.

Tuesday evening April 18, we all went down town to look around and visit the holy places—the old ruins of the olden time, thousands of years before Christ. The first place we visited was the largest, most noted, the greatest and holiest church in the world, and every one of your readers who get a chance to visit this country will agree with me. The name of it is the church of Kayama and part of it inside is called the church of half the world. It is in the hands of the Greek Convent from Greece and there is not enough money in the world to buy the church. In the time of Christ the ground on which the church stands was the location of the palace of King Herod and the place where Jesus was crucified and buried and the old olive tree to which Christ was tied when his arms were tied together the time they brought him before the governor of the Jews in Jerusalem. As we went in the big door, one of the marble posts at the door is bursted lengthwise, and people of that place told me that it happened a few years ago when the light of Jesus comes out in that church, on every Saturday in every year, the day before Easter, the day of his resurrection. As we stepped inside the church, we saw the place where they washed the body of Jesus above which hangs seven costly lights presented by seven different kings of Europe. After which, a few steps to the left is the spot where Mary Magdalene, a friend of Christ and his mother, stood at the time of His crucifixion. Close by is the real tomb of Jesus and the place where they put his dead body. This tomb is grand and very interesting and every Christian should come to Jerusalem and visit the tomb of Christ. The monument built on Christ's grave cost a barrel of gold. To our right is the church of half the world, the decoration of which cost more money than a person can imagine. To the left of this is the place where the cross was found. Everything in that place is still like it was when it was discovered. It looks like it was dug out of a huge rock. The looks of the place is enough to convince anyone of the truthfulness of those noted and sacred places.

Some little piece from there is the old place where Jesus hid from the Judge and the place where the women followed Him in order to help Him out and see what they were going to do with their friend; and the place of Gulgutha, which is mentioned in the 27th chapter of St. Matthew, the very place where our beloved Saviour was crucified, and the post to which He was bound is still there. Just a few yards from this place is where Mary, the mother of Jesus lived in Jerusalem and the very room which she occupied during her stay in the city. In this same neighborhood we saw the tomb of Abraham, so the people of Jerusalem claim.

The Roman Catholics own a little place in the big church which they use as their church. It is nicely and costly decorated. None of you who have never visited the eastern countries can realize the millions of dollars spent for costly, lamps pictures and furniture for the churches, and if I were to tell you all about what I saw in this big church it would take a whole week. Anyhow when we get back to Hickman some of you will ask us what we saw in Jerusalem, so we will have to save some news about the greatest church on earth, especially about the Russians who are very religious indeed. There are about 8,000 of them here and it is indeed interesting to see them when they go to worship. They begin making the cross, kissing the holy places, kneel down and pray, kiss the floors, and pictures. I believe each one of them kissed the church all over, and they are the most truthful people in what they believe than any nation I ever saw. The Greeks are great be-

A man who isn't worth his salt
must be too fresh to be of any use.

It's pretty rare to find a married
woman who wants her life insured.

No one has ever yet been able to ex-
plain just why a widow is "charming."

It is a fine thread in life's garment
to hear a man, whose heart is break-
ing, say, "Cheer up."

If you can play a quiet game of cro-
quet with your neighbor you are cer-
tainly good friends.

If you can detect the odor of onions
in a young girl's breath you may be

gaged.

A woman will wobble along on high
heels, but you can't shake her belief
that they aren't the best kind of a
thing for her particular kind of a foot.

The Courier's Weekly Sermon
By PASTOR RUSSELL
SUBJECT

THE HOLY NAME.

Pastor Russell Declares That Mil-
lions of Christians Unwittingly
Profane the Creator In Misrep-
resenting What His Holy Name
Represents.

SUGGESTIONS WORTHY OF CONSIDERATION.

Denver, Colo.,
June 18.—Pastor
Russell gave two
public addresses
here today, one of
which we report.
Many of Denver's
prominent religious
people were con-
spicuous in the
large audience.

Profound impressions were undoubtedly
made. Speaking from the text,
"Holy, holy, holy, Lord God Almighty;
the whole earth shall be filled with
thy glory" (Revelation iv, 8), the speak-
er said:—

Three General Views.

There may be said to be three differ-
ent theories prevalent in Christendom
on the subject. All three of these
views declare that the Almighty, with
full power to have done otherwise, so
created humanity that a child once
born into the world can never die—
must live somewhere unceasingly—
either in pain or in pleasure. By what
authority any make these declarations
we have never ascertained.

Our Catholic friends tell us that by
Divine arrangement, terrible purga-
torial experiences await practically
every member of our race, in the hope
that, if rightly exercised thereby, after
centuries of torture, an eternity of
bliss will be gained. Is not this also
a blasphemy against the Holy Name?
Who could deny it? Surely such a
theory is blasphemous, horrible.

Worse and Worse—Predestinated.
Is it any wonder that, in early life
our childish hearts were filled with
fear rather than with love toward our
Creator and toward His Revelation,
the Bible? Is it any wonder that it
required all kinds of fighting with our
common sense to believe, as we were
taught we should, that God lovingly
predestinated that all human families
should suffer eternally except a saintly
handful—because He was pleased to
have it so—because He foreordained
that it must be so—because He had
made a great place called hell before
He made the earth, and made it large
enough to hold the entire human fam-
ily—because He created fire-proof de-
mons to inflict tortures upon the poor
unfortunates who were shapen in in-
iquity, in sin conceived by their moth-
ers.

Still Another Blasphemy.

A considerable proportion of think-
ing Christian people will join with us
in saying, Ah, surely Brother Calvin
grievously erred and grievously mis-
represented the God of love when he
taught the doctrine of the predestina-
tion of the wicked to eternal torture!
Ah! say these Christian friends, our
hearts rebel against that theory of Di-
vine predestination. We claim that

Ah! my friends, is not this still an-
other form of blasphemy? If some of
us blasphemed the Holy Name in rep-
resenting our Heavenly Father as mer-
less, loveless, have we not in another
way blasphemed that same Holy
Name in declaring that He lacks the
power and the wisdom to do the good
which His loving heart would prompt?
Do we worship a stupid and impotent
God, one who blundered in the crea-
tion of our race, and who, for six thou-
sand years, has been striving to rec-
tify that error and all the while has
been allowing thousands of millions of
His creatures whom he loves to go
down to an eternity of torture? Alas!
It would be nearly as easy to worship
an all-powerful and loveless God as
to worship an all-loving but unwise
and impotent God who foolishly, sin-
fully, brought thousands of millions
of intelligent beings into existence only
to suffer an eternity of agony through
His incompetence.

"Holy, Holy, Holy, Lord God."

We come now to our text. It de-
clares that the time is coming when
the whole earth shall be full of God's
glory. Ah! glorious day! Then the
shadows of ignorance, superstition,
mis-understanding and misrepresenta-
tion in respect to the Divine charac-
ter will all flee before the light of the
knowledge of the glory of God—the
appreciation of the Divine character
as manifested in the Divine Plan for
human salvation. Could this Scrip-
ture ever be fulfilled, could the Divine
character ever be appreciated by in-
telligent, honest, just and loving
hearts, if in any corner of the Uni-
verse there were such orgies and tor-
tures of His creatures as the creeds of
the Darker Ages have set forth?
Surely not! On the contrary, in this
glorious day will be fulfilled the
Scriptural prediction, "all in heaven
and in earth and under the earth
[everywhere] heard I saying, praise-
glory, honor, dominion and might be
unto Him that sitteth on the throne,
and unto the Lamb forever!"

ARARAT NOT EASY TO CLIMB

Only Seventeen Ascents of the Moun-
tain Where the Ark Rested Have
Been Recorded.

Ararat is not a mountain that is
climbed every day, or even every
year. Seventeen ascents have been
recorded. When James Bryce, unac-
companied, made his remarkable as-
cent in 1878 he was told by every one
whom he met in the vicinity of the
mountain that the top had never been
reached, and what was more, it never
could be. Jinns and fiends and gi-
ants had prevented the rascally
Kurds from even attempting to scale
the terrible mountain, and since the
Ark grounded there mortal man had
not been allowed to trespass on the
sacred heights he was informed. Had
not St. Hagop tried again and again
to reach the summit in order to sil-
ence the skeptics about the Ark? But
found himself each morning on wak-
ing quietly deposited at the base,
whence he started. Finally an angel
presented him with a piece of the
Ark for his pains, but told him to
cease his attempts to reach the for-
bidden ground. That was in the
fourth century of our era, but the
piece of the Ark is still to be seen
at the monastery of the Elchmaldsin,
where dwells the catholicos of the
Armenian church. That Russian, or
a stray lone Englishman, had really
reached the top of Ararat was not to
be thought of.
